2. ENFORCEMENT AND COMPLIANCE BRANCH

The Enforcement and Compliance Branch is divided operationally into four units. The Enforcement Centre operates a number of phone lines which include the toll free Turn-in-Poacher, Firewatch, Park Watch and Spill Control Line, among others. As well, the Enforcement Centre acts as a central clearing house for resource related enforcement information and statistics.

The K-9 unit handles all investigations where the use of a trained dog and handler may make a difference in the outcome of the case.

The Special Investigations Unit concentrates on unlawful commercialization of fish, wildlife and other resources and out of province investigations in conjunction with other resource law enforcement agencies.

The Training Unit is responsible for development and delivery of resource law enforcement related training, and administration of various programs such as the resource aircraft program.

2.1 PROVINCIAL ENFORCEMENT CENTRE

The Provincial Enforcement Centre operates 24 hours per day, seven days per week. It is staffed by uniformed conservation officers with varied amounts of field experience. Besides handling telephone calls on the toll free numbers, the enforcement centre analyses and stores information on all resource related law enforcement carried out by conservation officers throughout the province.

2.2 K-9 Unit

Saskatchewan Environment and Resource Management has developed a Conservation Service Dog Program to provide support services to field staff in locating evidence, violators, lost persons and to provide detterance through education, media and patrol presence. One conservation officer and one german sheperd dog attended the Ontario provincial Police Canine Training academy in Gravenhurst, Ontario in 1994.

The issue of officer Safety was given a high profile for conservation officers during 1997. This impacted on the services which the K9 unit could provide and placed limitations on what activities general conservation officers could conduct. This further reduced the number of situations where the K9 would have been requested. The addition of further safety equipment and training for all officers will correct this situation.

The K9 unit became very involved with the RCMP in presenting the Hug-A-Tree program. This program is aimed at children from kindergarten to grade six, and has as its purpose the goal of teaching them:

1. How not to become lost in the woods,
2. What to do if they do become lost,
3. How not to come to harm, and
4. How they can help searchers find them.

An agreement has been signed which acknowledges the Provincial Canine Handler as a "qualified presenter". Presentations to date have primarily been in Prince Albert area but this will be expanded in the future.

A K9 fund has been officially started and accrued a total of $1,550.00 during 1997. A portion of the fund was targeted towards the purchase of a protective bite suit. This donation was directly matched by Forest Fire Management Branch. The remainder of the fund was used to purchase other safety equipment. A donation from SACO was to be matched by SERM and was used to purchase promotional cards which feature the K9 unit.

2.3 SPECIAL INVESTIGATIONS UNIT

The Special Investigations Unit of the Enforcement and Compliance Branch concluded 13 investigations in 1997 wherein 43 individuals faced 196 charges. These charges stemmed from undercover operations initiated in 1994(3), 1995(4), 1996(5) and 1997(1). The majority of charges were under the Wildlife Act (119) of which 55 were for trafficking. Fisheries charges, both Federal and Provincial, numbered 67 of which 53 pertained to trafficking. The 10 remaining charges were Criminal Code (4) and Outfitter and Guide Regulations (6). Fines totaling $75,300.00 resulted from the 13 concluded cases.

On November 1, 1997, internal restructuring resulted in the Enforcement Centre being moved to Special Investigations. One investigator has been assigned as supervisor of the Enforcement Centre.

Two Saskatchewan officers assisted a Federal Agency by functioning as operators for 2 weeks on a large investigation in eastern Canada. This is a positive result from the creation of a national pool of trained undercover conservation officers that has been established as a result of a National Training Course initiated in 1992.

Trafficking of wild meat and antlers remains a major concern in Saskatchewan. Illegal outfitting, particularly migratory birds and whitetail deer continues to be a problem. Also, the demand for birds of prey and their parts remains strong.

A new area that will require vigilance is a growing number of non-residents coming to Saskatchewan to pick up shed antlers. Several of these individuals have been found in possession of intact skulls with antlers and preliminary intelligence indicates they may be buying the antlers from Saskatchewan residents.

2.4 TRAINING UNIT

Enforcement training in 1997 was aimed at increasing the safety, efficiency and professionalism of Saskatchewan's conservation officers. This was accomplished by providing in-service refresher and requalification courses in the areas of shotgun handling and defensive tactics along with building skills in such areas as interviewing suspects and small vessel handling among others. Whenever possible, training was done in conjunction with regional meetings and other functions to keep costs to a minimum.

Total course attendance for the 1997 calendar year was 730. 48 courses, ranging in length from one-half to five days in length were held. A total of 1335 officer days were devoted to enforcement training (see Table 2.4.1).

The 1997 calendar year saw specialized enforcement courses offered to specific groups of officers throughout the province. Training in tactical surveillance and courtroom prosecutions were provided. A National Special Investigations Managers course was also offered to agencies across Canada. The course was hosted by the Special Investigations Unit with cooperation and assistance from the Training Unit.

The Canadian Wildlife Service also offered a Non-toxic Shot Seminar to Saskatchewan conservation officers. Training was held at Saskatoon and Yorkton with 37 officers taking part. Training focused on theory behind the use of non-toxic shot and the benefits to the environment. An opportunity was provided to live fire some of the ammunition.

The training objective for 1998 remains at 10 days of training per officer as recommended by the Department Safety Committee. Pistol training will be the focus for 1998. The Saskatoon City Police Department has trained 24 conservation officers as Glock pistol trainers. Further training will involve field conservation officers and resource area managers. Other courses for 1998 include shotgun requalification, defensive tactics recertification, among others.

A training calendar, developed in cooperation with Human Resources Branch and Forest Fire Management Branch was distributed in early 1998. As in past years, this calendar outlines courses proposed for the upcoming calendar year. Managers are able to use this calendar as an aid in staff scheduling throughout the year.

3. ENFORCEMENT PROGRAMS

Conservation Officers employ various means to assist them in fulfilling their duties. Controlled Wildlife Models and Roadside Inspections are tools available to Saskatchewan's conservation officers. Each use must be approved at the regional level. Reports on the results obtained at each operation must be filed with the Director of Enforcement and Compliance Branch upon completion of the operation.

3.1 CONTROLLED WILDLIFE MODELS

Controlled Wildlife Models (CWM's) are the most effective method of bringing three key elements of wildlife crime together. They allow the offender, the target and the officer to be in the same place at the same time.

CWM's are typically used in road corridor game preserves and in areas where late hunting (ie: hunting at night) is a problem.

TABLE 3.1.1: CONTROLLED WILDLIFE MODEL (CWM) USE - 1997

3.2 ROAD SIDE INSPECTIONS

Roadside Inspections (RSI's) allow officers to monitor the flow of fish and wildlife from specified areas. An RSI is set up in a safe location where travelling sportsmen may be directed away from the regular flow of traffic for compliance checks.

RSI's are used mainly during the busy periods of the angling, migratory game bird and big game hunting seasons.

3.3 TURN IN POACHERS PROGRAM

The Turn In Poachers (TIP) Program is centered in the Provincial Enforcement Center in Prince Albert. The TIP program allows the public to call toll free from anywhere in Saskatchewan, Manitoba and Alberta. Conservation officers staff the phones 24 hours each day, 365 days of the year. Calls made to the TIP line are forwarded to the conservation officer in the appropriate district. As of April 1, 1998 all TIP calls resulting in convictions are eligible for a cash award through SaskTip, a non-profit non-government organization.

3.4 RESOURCE AIRCRAFT PROGRAM

A resource aircraft program was instituted in September 1994 with a view of providing two aircraft for use by department personnel on a contract basis. One Cessna 185 equipped with floats, wheel-skis and wheels was tendered through a private air carrier and one Partenavia twin engine aircraft was secured through Northern Air Services. The trial program ran from September 1, 1994 to March 31, 1995. The aircraft were utilized in many ways, including but not limited to enforcement patrols and wildlife surveys. Aircraft were booked and coordinated through the Enforcement and Compliance Branch in Prince Albert. Airtime, fuel and pilot S4's and overtime were paid for by the regions/branches requesting the aircraft. Northern Air Operations covered the pilots regular wages and Forest Fire Management Branch (FFMB) provided fuel where possible.

The program was modified slightly in September 1995 to allow department personnel to book the twin engine plane directly through Northern Air Operations. This was done to alleviate double bookings as had occurred the previous year. The Partenavia leased in previous years was replaced with a department owned Aerostar twin engine aircraft. The procedure for use of the 185 remained as it was.

In the fall of 1994 a one day training course was provided for the four pilots involved in the program. Many aspects of basic law enforcement such as note-taking, use of the "10" code, and continuity, among others were covered. This short course was expanded in the fall of 1995 to include designated officers from each region who spent an intensive three days in Prince Albert on an Overhead Observers workshop facilitated by the Enforcement and Compliance Branch, Training Unit.

Changes to the 1996-1997 program included the use of a department owned Aerostar twin engined aircraft and a two year agreement in place for use of the Cessna 185. The 185 was contracted to La Ronge Aviation for a two year period at the rate of $105.50 with a 300 hour minimum per year. The Aerostar was billed out at the rate of $165.00 per hour.

The Cessna 185 was used extensively throughout the 1996 fall hunting seasons in the Meadow Lake and Prince Albert regions as an aid to conservation officers carrying out compliance checks. A number of otherwise unreachable hunting camps were checked to the surprise of the occupants. Officers using the plane in this manner reported a large number of high quality checks and felt the preventative aspect of this type of enforcement is immeasurable. La Ronge Region also made use of the aircraft to check remote recreational leases in out of the way places.

The Wildlife Branch used the 185 to carry out its annual wildlife inventories in various areas throughout the province.

Fisheries Branch was involved in a joint project with Sask Power along the Saskatchewan River near the community of Cumberland House. A small number of sturgeon had been tagged with electronic collars in 1994. These fish were being monitored by the provinces of Manitoba and Saskatchewan to determine their movements and general habits.

Wardens from Prince Albert National Park flew its borders in mid-November upon receiving reports of poaching along the boundary. They also were able to conduct some wildlife surveys during the same time period.

The plane was also used as an economical alternative to commercial flights to other centers on short notice. Pilot training hours were paid for by the Enforcement and Compliance Branch.

The program was put on hold indefinitely with the crash of the Cessna 185 while doing wildlife population surveys near Marsden on January 24, 1997. All three people aboard were killed. A handshake agreement with the air carrier suspended the contract until such time as the program was reinstituted.

Any further resource flying during 1997 was coordinated by the individual branches or regions.

4. ENFORCEMENT INCIDENTS

Enforcement incidents include activities which arise from time to time as a result of an officers day to day duties. These include high speed pursuits, assaults and the use of force. All such incidents must be reported to the director of the Enforcement and Compliance Branch.

4.1 HIGH SPEED PURSUITS

High speed pursuits occur when the pursuit and apprehension of the individual(s) is in the interest of public safety and/or apprehension of the individual(s) poses no danger to the general public. Given such variables as road, weather and vehicle conditions, the severity of the crime, the officer's knowledge of the area, and the likelihood of capture, an officer must continuously reassess the pursuit he or she may be involved in.

4.2 ASSAULTS ON CONSERVATION OFFICERS

The definition of assault includes intentional, unlawful offers of corporal injury to an officer. A battery is not essential. It is sufficient that the officer fears that he is in imminent danger. Idle threats are not recorded. Figures reflect physical assaults only. Data from the previous three years are offered for comparison. A description of all assaults, physical and verbal can be found in Appendix O.

4.3 USE OF FORCE

Conflict often occurs to greater or lesser degrees as a consequence of interventions arising from law enforcement efforts. Resistance is sometimes encountered, and may come in the form of anything from psychological intimidation to aggravated active aggression. Officers respond either by disengaging or selecting an appropriate level of force to effect control. This report identifies those incidents in which a control measure in excess of verbal direction was used.

A reporting system for use of force incidents was not in place prior to 1995.

APPENDIX N: HIGH SPEED PURSUITS

1. Officers responding to a TIP Call encountered the suspect vehicle slowly leaving the area in question. Officers engaged emergency equipment , vehicle accelerated to approximately 140 km/h on pavement and turned on to a gravel road accelerating to 120 km/h. Intercept vehicle was dispatched from location ahead of suspect vehicle. Initial chase vehicle abandoned chase to return to complainant's location to ensure her safety. Other vehicles, including K9 unit, dispatched from nearby locations. Suspect vehicle encountered returning to area. Code 5 take down resulted in four occupants arrested.

2. Officers on regular night patrol observed a spotlight close to their location. Officers closed in on the suspect vehicle with lights out and observed until a safe take down location could be found. Emergency stop equipment was activated. Suspect vehicle accelerated away. Officers lost the vehicle after approximately one mile due to dust on the road. The pursuit was abandoned for safety reasons.

3. One officer was on park enforcement patrol when a vehicle entered the park area after 2300h. The officer attempted to stop the vehicle for a Parks Act compliance check. The suspect vehicle turned around abruptly and left the park area at a speed of over 80 km/h. The suspect vehicle drove through a nearby resort village and onto a reserve adjacent to the village. The suspect vehicle was located on the reserve, but the driver could not be identified.

4. During fall hunting season a vehicle with two adults and one child was stopped for a hunting compliance check. The officers suspected that the driver had given a false name. When the officers returned to their vehicle in an attempt to positively identify the driver, the vehicle left the scene. The vehicle drove onto a nearby reserve and stopped at the end of a dead end road. The driver exited the vehicle and ran into the bush. The two passengers were detained and handed over to the local RCMP.

5. During fall hunting seasons conservation officers attempted to stop a vehicle in order to perform compliance checks. The driver of the vehicle was signaled by hand to come to a stop, but chose to drive slowly past the officers and continued down the gravel road. The officers followed in their marked vehicle with the emergency stop equipment activated. The suspect vehicle slowed considerably at a "T" intersection where the officers closed to within 50 feet. The suspect vehicle them turned left and accelerated to approximately 120 - 130 km/h for a distance of two miles. Suspect continued through a blind intersection, slowed, entered a field and circled back through the intersection losing the officers in the dusty road conditions. Suspect was known to officers, charges pending.

6. Officers were conducting a joint patrol with other CO's and RCMP members for winter park activity. Officers encountered three snowmobiles in the park and attempted to stop

them. One snowmobile driver accelerated past the officers and drove onto the lake. One officer followed with speeds reaching over 100 km/h. The suspect snowmobile then left the lake and entered a cottage subdivision. Once again speeds reached over 100 km/h. The suspect snowmobile eventually reached a cabin and stopped in front of it. The officer left his snowmobile and attempted to arrest the person, when he was assaulted by a second individual. At this point the first suspect removed his helmet allowing the officer to identify him. Shortly afterwards the suspect's father came out from his cabin and further assaulted the officer by jabbing him with his finger and threatening to physically strike him. Back up was called. Two officers and two RCMP members attended. Charges are pending.

7. Suspect vehicle was clocked on radar speeding inside a provincial park. Emergency equipment was activated and suspect vehicle accelerated into core area of the park. The suspect vehicle drove down a back alley, through a ditch, striking a culvert and back onto the main road where it began to sputter and eventually stopped on the road. Speeds of 60 - 70 km/h were attained in the 30 km/h zone around the core area.

8. During a park enforcement patrol a vehicle was noted driving dangerously in a cottage subdivision at 0200h. An officer attempted to stop the vehicle by engaging emergency stop equipment. The suspect vehicle accelerated rapidly and attempted to exit the park at speeds in excess of 100 km/h. The officer attempted to follow, but lost control of the vehicle and entered the ditch, striking some small trees. The chase was abandoned at this point.

9. In response to a TIP call officers were patroling an area looking for night hunting activity. A spotlight was observed in the area and officers followed and observed the vehicle, waiting for a safe place to stop it. A second patrol vehicle was placed in front of the suspect vehicle in an attempt to execute a box intercept intervention. The suspect vehicle turned around and drove toward the first vehicle necessitating a frontal intercept. Emergency stop equipment was activated but the suspect vehicle accelerated past the officer's vehicle. At this time it was noted that four people were in the vehicle and a fifth was riding on the hood, operating the spotlight. The suspect vehicle drove a short distance and stopped allowing the person on the hood to enter the vehicle. The suspect vehicle then drove off at high speeds raising a dust cloud on the gravel road. Pursuit was abandoned after the suspect vehicle extinguished its lights and could not be safely followed.

10. An officer responded to a TIP call where an elk had been shot on private land. It is felt that the landowner scared off the suspects just prior to calling the TIP line. The attending officer located the elk and positioned his vehicle to watch the area from a concealed position. Approximately three hours later a vehicle entered the area and proceeded

directly to the elk carcass. The officer began driving to the suspect vehicle with lights out. As the patrol vehicle neared the suspect vehicle, the suspect vehicle turned quickly and fled the area. Emergency stop equipment was activated, however the suspects chose to leave the area at a high rate of speed. The officer attempted to follow but abandoned the pursuit due to road dust and traffic.

11. An officer on patrol in a park was notified by a park patron of a vehicle driving eratically and at high speeds on a highway in the park. The officer gave pursuit and came upon the vehicle in a ditch. The suspect vehicle was showing some damage and could not be driven further. The officer detained the suspect and called for RCMP assistance. RCMP attended, arrested the suspect for impaired driving and transported him to local cells.

APPENDIX O: SUMMARY OF ASSAULTS

1. Verbal Assault. Two officers were at a commercial fisherman's place of business to explain why his application to fish had been denied. The fisherman become very angry and verbally abused the officers. The told the officers to leave and as they turned to go, he ran out from behind the counter to a position directly behind one officer. The other officer, knowing the person's history for violence stepped in behind the person. The fisherman, seeing he was outnumbered ran into another part of the building and did not come out.

2. Verbal Assault - Two officers attended a residence after the occupant called the TIP line to advise of a live bald eagle in captivity and for sale by his neighbour. The complainant was very anxious to have an officer attend his residence. When the complainant called back a second time,the officer attempted to run the subject on CPIC. The check was not successful as the system was down. Upon arriving at the complainant's house the complainant met the officer's unmarked vehicle in front of his house. Throughout the ensuing discussion, the subject tried to have one of the officers exit the vehicle and approach his neighbour's house. When it became evident to him that the officers were not going to follow him, the subject tried several times to get the officer to stick his head out of the vehicle and look at the moon. When this failed, the subject became very agitated and threatened the officer stating he could ring his neck just like a bird. The officers indicated they would look into his complaints and left the scene.

   Shortly after the visit by the officers, the local police picked up the subject and remanded him in custody of the mental health professionals. The subject is considered extremely dangerous and has a criminal record which includes manslaughter and other acts of violence.

3. Verbal Assault - While attempting to serve an individual for operating an unlicenced vehicle, the subject became very agitated with the lone officer, yelling profanities and threats at the officer. At one point the subject stood in his doorway striking the doorframe and a propane tank with a wooden axe handle repeatedly and in a threatening manner. The officer retreated unharmed.

4. Physical Assault - Officers were conducting a joint patrol with other CO's and RCMP members for winter park activity. Officers encountered three snowmobiles in the park and attempted to stop them. One snowmobile driver accelerated past the officers and drove onto the lake. One officer followed with speeds reaching over 100 km/h. The suspect snowmobile then left the lake and entered a cottage subdivision. Once again speeds reached over 100 km/h. The suspect snowmobile eventually reached a cabin and stopped in front of it. The officer left his snowmobile and attempted to arrest the person, when he was assaulted by a second individual. At this point the first suspect removed his

helmet allowing the officer to identify him. Shortly afterwards the suspect's father came out from his cabin and further assaulted the officer by jabbing him with his finger and threatening to physically strike him. Back up was called. Two officers and two RCMP members attended. Charges are pending.

5. Verbal Assault - An officer was called to a campsite in a park to assist in an eviction. While conducting the eviction, the subject approached the officer and asked why they were being evicted. The officer explained the just cause and the subject stated that he would return and destroy the entire facility. The subject then stated that he would contact a well known outlaw motorcycle gang, with which he was affiliated. The gang would be visiting the officer's home and the officer would end up "six feet under". The subject was then arrested and placed in a patrol vehicle. Another officer attended the scene who knew the subject and the subject calmed down. He later admitted that he was attempting to scare the officer and he was in no way affiliated with the motorcycle gang.

6. Verbal Assault - Two officers were responding to a call of a moose killed on private land well after the hunting season had ended. The officers located the kill site and found a number of people onsite processing the moose. The subjects were advised that the moose had been killed illegally and would have to be turned over pending court action. One of the subjects then began to walk towards the officers with a bloody butcher knife in his hands, speaking in a threatening manner in a mix of Saulteaux and English. The officers retreated and called for RCMP back up. The subject continued to process the moose until told to stop by one of his party members.

7. Verbal Assault - Two officers were attempting to serve a summons on a subject known to the officers. Upon being served the subject began yelling insults and threats at the officers. He then exited the kitchen and went into the living room telling the officers to leave and saying "Next time there will be no words". He came back into the kitchen carrying a hammer above his head and advanced toward the officers yelling at them to leave. The officers left the papers on the table and exited the house. Criminal code charges were laid at a later date. The subject had earlier told one of the officers the he is not afraid to die.

8. Physical Assault - Two officers were patrolling an area where a known illegal hunter was expected to be operating. The subject was encountered shortly after the officers entered the area and stopped for illegal hunting. The subject became enraged and lunged at one of the officers striking him with his open hand in the neck. The officers deployed and used their O/C spray rendering the subject helpless and allowing the officers to control and handcuff the subject until the RCMP arrived. Only three minutes elapsed from the time initial contact was made until the time the subject was handcuffed.

9. Physical Assault - An officer was investigating subjects who had an firearm in the park. The officer attempted to seize the firearm but was unsuccessful. The subjects removed the firearm from the officer and locked it in the trunk. The subjects were unable to leave the area due to being stuck in the snow. As the officer and one of the subjects were discussing the situation, a female subject kicked the officer in the groin, dropping him to the ground instantly. No other action was taken against the officer once he was incapacitated. Subject was charged under the Criminal Code.

10. Verbal Assault - Two officers were engaged in a commercial fishing check of a male with three kids. The officers asked if there were any game fish present as it was a non-sport fish season. The subject said there were none, but one of the kids told the officers there were some fish in the trunk of the car. The subject yelled at the child and when the officers uncovered three pike, yelled at the officers to leave the fish alone. He stated that he had an axe and an ice chisel and he would use it on the officers. The officers continued verbal diffusion and eventually calmed the subject to a point where he voluntarily surrendered the fish.

11. Verbal Assault - Two officers were checking fishing camps by aircraft. They flew over a known illegal cabin and noticed an all terrain vehicle (atv) parked outside. They decided to stop and speak with the individual there. As the plane landed and pulled up to the front of the cabin a young male ran out of the cabin and grabbed an encased firearm from the atv, ran back to the cabin and closed the door. The plane was in a position where the officers and/or the pilot would have had to exit the plane to turn it around to leave. With this in mind the officers decided they would be best off to talk to the subject rather than risk having him shoot at the plane. The subject was very upset as he felt the officers were there to evict him from his cabin. The situation was very tense. The officers believe the subject was in possession of the rifle when he was speaking to them from behind the partially closed door.

APPENDIX P: SUMMARY OF USE OF FORCE

1. An officer on patrol in a park was notified by a park patron of a vehicle driving erratically and at high speeds on a highway in the park. The officer gave pursuit and came upon the vehicle in a ditch. The suspect vehicle was showing some damage and could not be driven further. The officer detained the suspect and called for RCMP assistance. RCMP attended, arrested the suspect for impaired driving and transported him to local cells.

2. Officers were conducting a joint patrol with other CO's and RCMP members for winter park activity. Officers encountered three snowmobiles in the park and attempted to stop them. One snowmobile driver accelerated past the officers and drove onto the lake. One officer followed with speeds reaching over 100 km/h. The suspect snowmobile then left the lake and entered a cottage subdivision. Once again speeds reached over 100 km/h. The suspect snowmobile eventually reached a cabin and stopped in front of it. The officer left his snowmobile and attempted to arrest the person, when he was assaulted by a second individual. At this point the first suspect removed his helmet allowing the officer to identify him. Shortly afterwards the suspect's father came out from his cabin and further assaulted the officer by jabbing him with his finger and threatening to physically strike him. Back up was called. Two officers and two RCMP members attended. Charges are pending.

3. An officer was attending a wild rice meeting when the subject entered the meeting in n intoxicated state and began to disrupt the proceedings by yelling loudly. The subject was intoxicated and was asked by the officer to leave. The subject refused and the officer applied escort wrist locks to encourage the subject to comply. The subject reused to comply until pressure was applied at which time the subject willingly left the meeting without further incident.

4. Officers responding to a TIP Call encountered the suspect vehicle slowly leaving the area in question. Officers engaged emergency equipment , vehicle accelerated to approximately 140 km/h on pavement and turned on to a gravel road accelerating to 120 km/h. Intercept vehicle was dispatched from location ahead of suspect vehicle. Initial chase vehicle abandoned chase to return to complainant's location to ensure her safety. Other vehicles, including K9 unit, dispatched from nearby locations. Suspect vehicle encountered returning to area. Code 5 take down resulted in four occupants arrested without further incident.

5. Two officers on park enforcement patrol encountered an individual on the beach of the park. The subject had a large quantity of alcohol with him and was throwing beer bottles into the lake. The subject denied ownership of the alcohol and refused to give the officers his correct name. The subject was placed in escort position and escorted to patrol vehicle, where he was handcuffed, identified, charged and released.

6. Officers on park enforcement patrol observed a subject walking down a park road carrying a cup in his hand. When he observed the officers, he placed the cup on the ground and continued walking. The cup was found to contain liquor and the subject was detained for being intoxicated in a public place. During the investigation it was discovered that the subject lied about his age, making him a minor. The officers decided at this point to arrest the subject and place him in cells overnight. A backup vehicle with a silent patrolman was called and subject was handcuffed and transported to the local RCMP detachment.

7. An officer on patrol in a park received a complaint of partying from the previous night. A check revealled no one was registered to the offending site. The officer attended the scene and spoke with the two intoxicated females on site. The officer had run the vehicle licence plate and suspected a troublesome individual was nearby. As the officer was dealing with the two females a male entered the campsite from the lake. The officer called for RCMP backup through the Provincial Enforcement Center. After approximately one hour of speaking with the subjects the RCMP arrived. The male subject was arrested but refused to enter the police cruiser. The subject actively resisted and the officer and the RCMP member wrestled the subject to the ground. Once on the ground orders were given to the subject to stop resisting. The subject kept fighting and was sprayed with O/C spray by the RCMP member. The subject was then placed in the police cruiser. The officer placed one of the female subjects under arrest and escorted her to the police cruiser without incident.

8. Two officers on park enforcement patrol stopped a vehicle for squealing tires in the park. The subject was noted to be intoxicated and was arrested without incident and handcuffed. The subject was delivered to the local RCMP for breathalyser.

9. Two officers responded to call of intoxicated persons in a public area of a park. The officers found six people involved. Two people left the scene with relatives , two were compliant and the remaining two were arrested. One individual became verbally abusive toward the officers and after being placed in a patrol vehicle, exited the vehicle and ran into the surrounding bush. The individual returned to the scene a short time later but refused to return to the vehicle and remained verbally abusive. RCMP and conservation officer back up arrived and the subject was arrested and lodged in cells overnight. The subject had previous criminal code convictions.

10. Two officers were attending court. Two members of a Dene Sovereign group were before the court on three minor charges. As they were found guilty of the charges they became more and more agitated. Upon being found guilty of the third charge, one of the subjects became unreasonable in front of the judge. The officers and the RCMP were required to deploy O/C spray in affecting the arrest of the two subjects. Subjects were lodged with RCMP.

11. One officer attending court was requested by the RCMP member to handcuff and escort one prisoner being held for psychiatric evaluation from cells to court. Prisoner was cooperative.

APPENDIX Q: 1997 ROADSIDE INSPECTIONS BY REGION
